# What is a Comprehensive Plan?

- A long-range planning document that establishes a community's vision for the future and serves as a road map for achieving that vision over the next 20 years.
- Important policy document that City staff uses to make decisions on a daily and long-term basis.

## Local Planning:

- Provide a rational basis for zoning, development, and public investment decisions.
- Study important topics and questions impacting a community's future.
- Plan for land use and development changes and associated infrastructure needs.
- Provide action-oriented implementation strategies.
