Special Thank You

The annual Budget process truly represents a team effort. From the City Council and Department Heads to the Staff that makes the copies, the Budget document is a culmination of considerable work by the entire organization.

The Document could not have been accomplished without the input of Staff at all levels of the organization. Department Heads tap the resources of their teams to develop the ideas and identify the needs of their areas. These needs get translated into budget requests that come to the City Manager and Director of Finance. Priorities are then established within the framework of the goals of the organization and available resources. The document is finalized when the support Staff assembles it. The City Council completes this Team effort through its study and adoption.

Special "Thanks" goes to Director of Finance Tammy Ammann who was responsible for the majority of the budget preparation. She assumed this increased responsibility while the City Manager was learning the organization. Her efforts encompassed everything from inputting the data to the typical oversight requirement of the Treasurer's position. She did an outstanding job of crunching the numbers and providing advice on the "big picture".

Again, "Thank You" to all who helped in this major effort!

Sincerely,

Robert Knabel

Robert Knabel City Manager

Budget Message

TO MAYOR SCHAEFFER AND MEMBERS OF THE CITY COUNCIL, STAFF, AND CITIZENS OF THE CITY OF COLLINSVILLE:

INTRODUCTION

Adoption of the Annual Budget is the most significant policy decision made by a City Council during any given year. It is the Budget that:

- > sets the tax rate,
- identifies the number of City personnel,
- establishes the level of services to be provided, and
- allows projects to be completed.

It is through the implementation of this Budget that residents receive the services provided by the City of Collinsville. Most importantly, it is the "budget" that allows the vision and mission of the City to be accomplished.

Municipal budgeting is an extremely challenging effort. City Councils struggle with providing a high level of service at the lowest possible cost. Residents find it difficult to understand the budget and make sense out of the taxes (revenues) and services (expenditures). Finally, Staff members are challenged by the idea of transforming ideas, concepts and visions into budgetary reality. Through all of these efforts, these challenges must be met in an environment in which residents generally support the services but still want their taxes to be reduced.

A budget document should be a tool that is used to establish priorities for the City as well as to document progress during the fiscal year. In order for the budget document to be this sort of tool, it must be one that is clearly understood by all constituents. Residents must be able to translate the numbers into services as well as to understand where the taxes are going.

The budget should also be one that is used by the City Council and Staff throughout the entire fiscal year. Following adoption by the Council, the City Council and Staff will receive the Budget in a bound format so that it can keep the document for easy reference throughout the year.

In the document, the City Council will find the Budget designated by funds. For accounting purposes a state or local government is not treated as a single, integral entity. Rather, government is viewed instead as a collection of smaller, separate entities known as "funds".

The Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Section 1300, defines a "fund" as:

A fiscal and accounting entity with a set of self balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining

certain objectives in accordance with special regulations, restrictions, or limitations.

In accordance with the GASB standard, the enclosed Budget has been divided into six fund types: General Fund, Capital Projects Fund, Special Revenue Funds, Debt Service Funds, Enterprise Fund, and Fiduciary Funds. This format makes the Budget document easier to read and understand. It will make it easier to identify problem areas and focus on solutions and help see the bigger picture. Finally, the Budget document will conform to general accounting practices.

With the City Manager just beginning his tenure with the City, this Budget Message will touch on only briefly some of the major program initiatives as well as operational highlights. The Budget Message will address some of the Program Changes and New Projects the City Council will find in the Budget including the Staff's efforts within the Strategic Plan. Finally, the Message will review the Areas of Future Concern for the Council's consideration.

PROGRAM CHANGES AND NEW PROJECTS

The significant increases and decreases found in the Budget are highlighted by line item in the program description that precedes each section. Most of these changes are operational in nature, the result of cost increases the City has received or previous agreements or decisions by the City Council. The following changes represent program changes and projects that provide for a new direction intended to help achieve the City's Strategic Plan or previous goals and objectives.

General Fund

Administration

<u>City Council</u> – Other Professional Services (5490) – This line item is reduced due to the completion of the Strategic Plan that was assisted by Mr. Lyle Sumek. The Council will note, however that funds are now included for Mr. Sumek's services in the City Manager's budget for continued assistance with its implementation and work with the Department Heads.

<u>City Council</u> – Equipment (8300) – A total of \$10,000 is budgeted for laptop computers and docking stations for implementing the paperless agendas.

<u>City Council</u> – Community Relations (9130) and Miscellaneous (9190) – It will be noted that throughout the Budget, line items 9130 and 9190 have been eliminated, reduced drastically or moved to another line item. For accounting purposes, purchases in the 9000 accounts are typically made for items defined to be outside the budget or not accounted for.

<u>City Manager</u> – Other Professional Services (5490) – A total of \$6,000 has been budgeted for continuing the relationship with Mr. Sumek for another year. Mr. Sumek will return to work with the Department Heads to implement the Strategic Plan.

This line item also includes \$12,000 to contract with SIUE for an additional intern this next year. The City Manager would like to work with an Intern to develop a Financial Trends Monitoring System, a Program budget format, tracking performance and tied to

Department Head performance evaluations, and changes to the job descriptions of management staff. Performance standards will be tied to the Strategic Plan and its implementation, including the areas of customer service, high performance and PRIDE.

<u>City Manager</u> – Employee Development (5660) – A total of \$5,000 is set aside for the training and development of all staff in the areas of PRIDE, customer service, high performance.

Police

Operations – Equipment (8300) – Funding totaling \$62,000 for portable radios, radar units and in-car computers are included in order to allow for technology upgrades to allow the Department to be more aggressive in its enforcement efforts.

Fire

<u>Administration</u> – Building (8200) – Funds amounting to \$50,000 have been budgeted for improvements to the Northside Fire Station. These include improvements for painting, cabinets, roofing and the replacement of the front ramp. This project has been delayed and "in the works" for a number of years and is in need of completion.

Public Works

<u>Streets</u> – Salaries (4210) – A total of \$79,580 is added to the budget for one additional staff person. Director Tognarelli has requested two staff, however due to budget limitations, only one has been included. Future consideration should be given to completing this request. Consider the following changes faced by the Street Department:

Number of staff	14 (1973)	13 (2006)
Miles of streets	90 (1973)	160 (2006)
Limb pick up – hours	0 – (1993 - no program)	2900 hours (2005)
Oil/chip – hours	0 - (1993 - no program)	2800 hours (2006)
Street sweeping	2610 hours (2000)	1900 hours (2006)
Crack filling	1100 hours (2003)	0 hours (2005)
Sidewalk replacement	7000 lineal feet (1993)	2000 lineal feet (2006)

<u>Inspection</u> – Other Professional Services (5490) – It should be noted that a reduction is planned in this line item as a result of budget limitations. This line item has been reduced by \$12,500 and will result in reducing the number of condemnation and tear downs by the Department.

<u>Community Development</u> – Significant changes are recommended in the Department to address anticipated development needs. While unspecified in terms of the project, additional funding (\$10,000) is requested for engineering services (5320). Other Professional Services (5490) will increase (\$20,000) for a mapping project planned for the website and equipment (8300) is increased (\$27,000) for software and parcel information as required in the GIS mapping project. Finally, a marketing brochure is planned to assist in the development efforts estimated at \$17,000 in publishing line item 5530.

Capital Projects Fund

As the City moves towards addressing the Strategic Plan, this Fund should play a more significant role in the life of the organization. The Capital Projects Fund will contribute towards providing "superior services", making Collinsville the safest City in the region and the preferred place to live while supporting the vibrant downtown. While there are many non-monetary features to the Strategic Planning goals, capital expenditures will most clearly demonstrate the City's success in moving towards its new direction.

One of the clearest objectives listed as a "high priority" in the Goal on making Collinsville a "financially sustainable City providing superior services" was the one to provide "adequate resources to support defined services and service levels". As such the City Council and Staff will need to address the long term capital needs as well as the long term revenues. The Capital Projects Fund – through the Five Year Plan - will need to be revised as the City attempts to address the Strategic Plan.

However, at this time the 2007 Annual Budget includes \$940,000 in vehicles and various projects, including the purchase of two dump trucks and a pick up for the Street Department, a new Shuttle Bus, four vehicles for the Police, gear for the Fire Department and the beginning of street paving work on Pine Lake Road, from Manor Drive to Raintree.

Special Revenue Funds

Special Revenue Funds are designated revenue sources intended for special uses. As an example the Forfeiture Fund is intended only for law enforcement related purchases and cannot be used in any other area. MFT monies can only be used for street repairs and maintenance. The following are some of the major projects that the Council will see in the Special Revenue Funds.

<u>Forfeiture</u> – a major part of this fund is used to support officer overtime in the Police Department related to drug enforcement. The Forfeiture Fund will also support the completion of the Police Department's CALEA certification.

<u>Collins House</u> – Grant proceeds of approximately \$100,000 have been received for the renovation of the Collins House by the Historical Society.

<u>Motor Fuel Tax</u> – The City will expend over \$2M of motor fuel tax money to maintain and improve streets throughout the community. The largest part of these monies (nearly \$1M in Infrastructure and \$430,000 in Engineering) will go to the Mulberry Street Bridge and Spring Street phase I projects.

<u>TIF</u> – The most significant Special Revenue Fund is Tax Increment Financing District 1. This Fund gives the City its greatest flexibility, within the limits of the TIF law, to encourage economic development. Over \$4.5M is anticipated to be generated in TIF 1 that can be used for these purposes. The following are some of the major expenditures in TIF 1:

- Support of Downtown Collinsville Inc. \$70,000
- Unit 10 support \$550,000
- Payment on bonds for Police and Fire Stations \$331,000
- First phase of renovation of old Fire Station \$100,000

- Micropaving of East Port \$100,000
- Streetscape program in the Downtown Area \$1,875,000
- Gateway Center support \$543,775
- Downtown Façade improvements \$200,000
- Library renovations \$15,000

<u>Collinsville Crossing and Fournie Lane Business Districts</u> – With the 2007 Annual Budget, funds will be collected to begin paying for the completed improvements. Over \$600,000 will be generated in sales tax in these two Business Districts and then expended to support the note issues and rebate agreements for these two developments.

<u>Collinsville Animal Shelter</u> – Donations have been received for the construction of a new animal shelter. Bids have been let and the land purchased to begin this endeavor. Nearly \$500,000 has been received to fund this project.

Enterprise Fund

<u>Water Lines</u> – Funds totaling \$11,000 have been budgeted for the replacement of the overhead doors to the Water Line Shop and \$80,000 for the replacement of a new backhoe. Infrastructure (8500) includes \$300,000 in funding for installation of lines on the Mulberry, Spring Street, and McDonough Lake projects as well as emergencies repairs.

<u>Water Plant</u> – Engineering Services (5320) includes \$50,000 for a Capacity Rating Study to be done on the Plant. This will identify the capacity of the Plant to meet the future needs of the community. Line item 8300, identifies \$11,000 for a new Miox cell.

<u>Waste Water Lines</u> – The most significant change to the utilities is the proposed addition of one staff person for the Waste Water Line crew. A total of \$79,580 has been added for salary and benefits for this additional staff. This position is needed to allow the Crew to make trench repairs more safely. This will give one additional person to assist and monitor these excavations.

The Budget also includes \$45,000 for a new skid steer loader (8300), \$40,000 for a new service vehicle (8400) and \$100,000 in Infrastructure (8500) for the relining manholes and smoke testing.

<u>Waste Water Plant</u> – The only significant change for the Waste Water Plant is \$20,000 for Infrastructure (8500) for emergency needs that may result from changes from the Plant renovation.

AREAS OF FUTURE CONCERNS

Typically the City Manager will use this part of the Budget Message to address future needs and concerns that should to be brought to the Council's attention. However with only 60 days on the job, the City Manager wishes to focus the attention of this section on the Strategic Plan.

The City Council has made a great effort at identifying the future of the City with a vision that it has for the community. As such the greatest challenge the Council and Staff

have is the implementation of this Plan. If the Council is serious about moving the community forward towards the future it envisions, then there will be no greater effort given by the Staff than achieving this purpose.

The Staff of the City will be challenged to interpret and implement the desires of the Council. A work plan will be prepared on each of the Goals identifying sufficient resources that will be needed to accomplish the work. While the resources include staffing and funding, it will also require creative thinking and an entrepreneurial spirit in order to get the most out of those resources.

The Staff should be held accountable in this effort. The City Council and the community will be able to judge our progress in this effort. As such, the Budget and the upcoming Planning Sessions will be critical for the Staff in helping the Council achieve its vision. The Staff will be challenged daily to meet these goals.

The City Council will likewise be challenged in this implementation effort. It will be necessary to maintain the big picture in its view of the world. Policy decisions will be needed to change the current environment. If the Council is unwilling to make these moves then it will jeopardize its chances of success.

If we are to be successful in achieving our vision then restricting ordinances may be needed, a broader revenue base developed or new ideas put forward. These may require difficult political decisions, but ones necessary if we want a change. Likewise a different attitude and approach by the Staff may require difficult decisions by the City Manager. If we are truly about making a difference in the direction of the community, which the Strategic Plan contemplates, then both the City Council and City Staff may need to venture into troubled waters.

CONCLUSION AND SUMMARY

The Budget is truly a team effort. The Staff prepares the Budget for the Council's consideration, but it is the City Council's role to modify, change, delete, add and adopt. As an important part of the team, the City Council must be comfortable that the Budget will move the community towards its vision for the community. It is this decision that will begin to set the future for the City.

The 2007 Annual Budget presents a great opportunity for the City. It can be the catalyst to shaping the future of Collinsville. The Strategic Plan lays the foundation for this future. It is the Budget that will implement these ideas and begin this effort.

The City Manager and Staff are pleased to present the 2007 Annual Budget for the City Council's review and consideration. We look forward to discussing this Budget with the City Council about the services that will be provided and the future we will be creating.

Sincerely,

Robert Knabel

Robert Knabel City Manager

Introduction by City Treasurer

In accordance with Chapter 65 of the Illinois Complied Statutes (65 ILCS 5/8-2-9.1 through 5/8-2-9.10), the proposed budget for 2007 is submitted. In its final form, this budget document establishes the City of Collinsville's legal spending limit for the fiscal year beginning January 1, 2007. Budget amendments can be made throughout the year as follows:

Transfers of \$10,000 or less within a department may be made with the approval of the City Manager and Budget Officer.

Transfers within a department in excess of \$10,000, transfers between departments or increases in budget must be approved by the City Council.

The City maintains its records and presents fund financial statements on the cash basis of accounting. The accounts of the City are organized by funds, each of which is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, fund balance/equity, revenues and expenditures. The budget includes projected revenues and expenditures/expenses for fifteen funds: General, Capital Projects, Forfeiture, Tree Memorial, Collins House, Motor Fuel Tax, Tax Increment Financing District 1, Tax Increment Financing District 3, Collinsville Crossings Business District, Fournie Lane Business District, Animal Shelter, Police Pension Fund, Fire Pension Fund, 2003 B Bond Fund and Water/Waste Water Fund. Additional funds, which will be consolidated into the Water/Waste Water Fund, include 2003 A Bond Fund, 2006 Project Fund and 2006 Bond Fund. The funds are organized by fund type.

The 2007 Budget includes projected revenues of approximately \$33.7 million (20.2% increase over 2006) and expenditures/expenses of about \$43.7 million (48.6% increase over 2006) in all funds combined. The budgetary fund balance for all funds combined is estimated to be \$44.3 million at December 31, 2007. Of that amount, \$31.0 million will be held in trust for fiduciary funds (Police Pension Fund and Fire Pension Fund); \$8.9 million will be in the City's only business-type activity (Water/Waste Water Fund) and \$4.4 million will remain for all other funds, which includes the General Fund, Capital Projects Fund and all special revenue funds.

The General Fund is the main operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The 2007 budget includes projected revenues of approximately \$15.1 million (13.7% increase over 2006) and expenditures of about \$15.6 million (16.7% increase over 2006) in the General Fund. The \$524,650 difference will be provided by interfund transfers of \$369,900 and decreasing the fund balance by approximately \$154,750. The fund balance is estimated to be \$2.2 million at December 31, 2007. The City of Collinsville has established a goal of keeping the fund balance in this fund at 25% of current year expenditures in case of emergency. This goal will not be reached in 2007 as ending fund balance will likely be 13.9% of expenditures.

This document is a result of efficient planning, budgeting, auditing, reporting, and accounting in all municipal departments, commissions and boards. It is a realistic financial plan for the City of Collinsville in the coming year.

Revenue Trends

Ten-Year Property Tax Revenue History

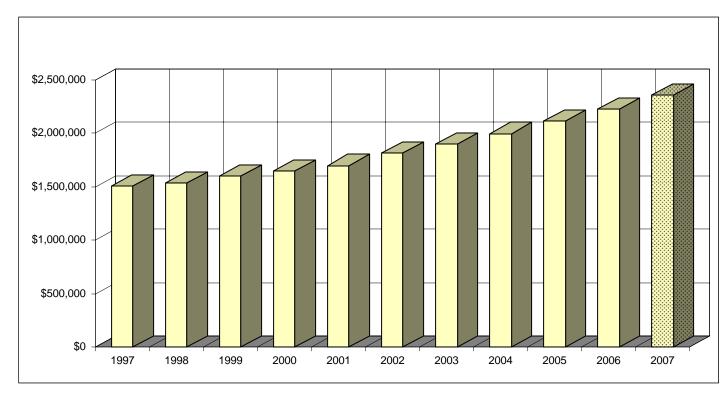

The total 2006 property tax levy for the City of Collinsville is \$2,359,227. Levies included are listed below. The Collinsville Memorial Library became a taxing district in 2004 and now levies separately. Therefore, the figures below exclude the Library for consistency. The Corporate, Police Protection, Fire Protection, Liability Insurance, Garbage, Social Security, IMRF, Unemployment, and Audit levies are deposited into the General Fund. A 1997 referendum set a limit of \$0.08 on the Corporate levy and \$0.0563 on the Police Protection and Fire Protection levies.

The Police Pension and Fire Pension levies are deposited directly into the Police Pension Fund and the Fire Pension Fund. The amounts of those levies are determined annually by the Illinois Division of Insurance.

Rates are per \$100 of Equalized Assessed Value (EAV). The 2007 rates are estimated.

Collection	Tax	Madison	St. Clair
Year	Levy	Tax Rate	Tax Rate
1997	\$1,503,794	0.7646	0.7594

Ten-Year Sales Tax Revenue History

The largest source of general fund revenues is sales tax. Based on historical data, sales tax is expected to provide over one-third of the general fund budget in 2007. Of the \$0.0625 per dollar state sales tax, \$0.01 is returned to the city in which the retail sale was made. As the graph below reflects, sales tax revenue has been rather stagnate for the last couple of years. However, a large increase is projected during 2007 due new development in the Collinsville Crossings area and the anticipated opening of several large retails.

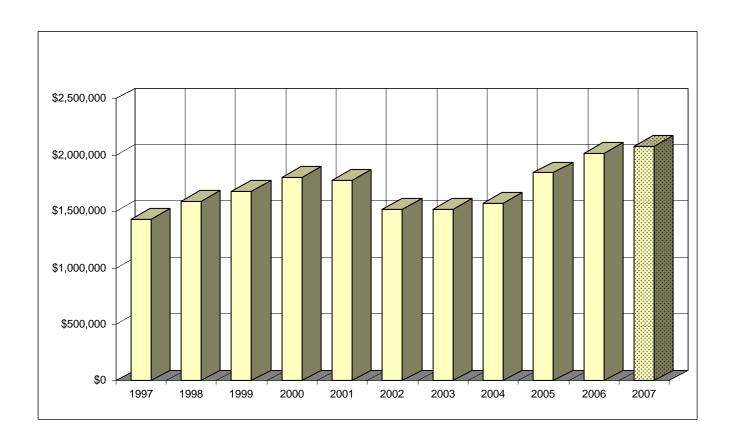

Fiscal	Revenue	Percent
Year	Received	Change
1997	\$3,310,426	<u> </u>
1998	\$3,401,754	2.8%
1999	\$3,706,481	9.0%
2000	\$3,852,777	3.9%
2001	\$3,946,990	2.4%
2002	\$4,112,878	4.2%
2003	\$4,101,123	-0.3%
2004	\$4,340,805	5.8%
2005	\$4,277,480	-1.5%
2006	\$4,270,000	-0.2%
2007	\$5,300,000	24.1%

Ten-Year Income Tax Revenue History

The second largest source of general fund revenues is income tax. In 2007, income tax is expected to provide approximately 13% of the general fund budget. The State of Illinois distributes 10% of the net state income tax receipts to municipalities on a per capita basis. Based on recent projections by the State of Illinois as well as a recent increase in population an increase in this revenue source has been budgeted for 2007.

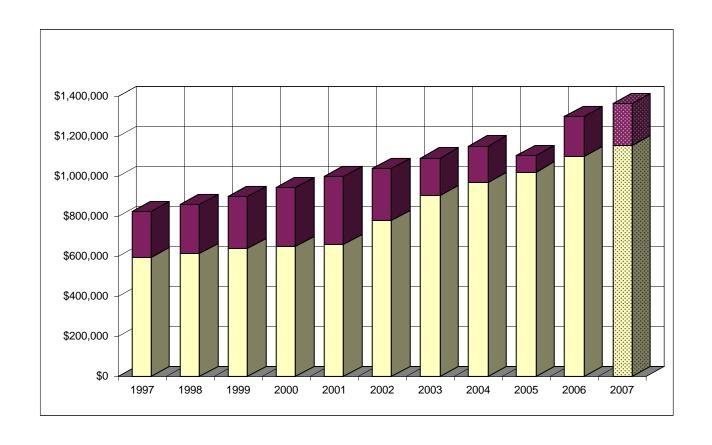

Fiscal	Revenue	Percent
Year	Received	Change
1997	\$1,432,596	
1998	\$1,589,338	10.9%

2002	\$1,520,938	-14.4%
2003	\$1,520,371	0.0%
2004	\$1,573,638	3.5%
2005	\$1,841,444	17.0%
2006	\$2,014,000	9.4%
2007	\$2,080,000	3.3%

Ten-Year Garbage Revenue History

In August of 1991, the City contracted with a private hauler for residential curbside recycling and trash pickup. As of December 2006, Allied Waste was providing this service to approximately 10,060 households. In 2006, Allied Waste charged the City \$10.40 per month per household. The City billed senior citizen households \$6.75 per month and all other households \$9.96 per month. The difference is provided by a property tax levy. In 2006, the City paid Allied Waste a total of approximately \$1,365,000 for garbage disposal and billed residents a total of approximately \$1,100,000.

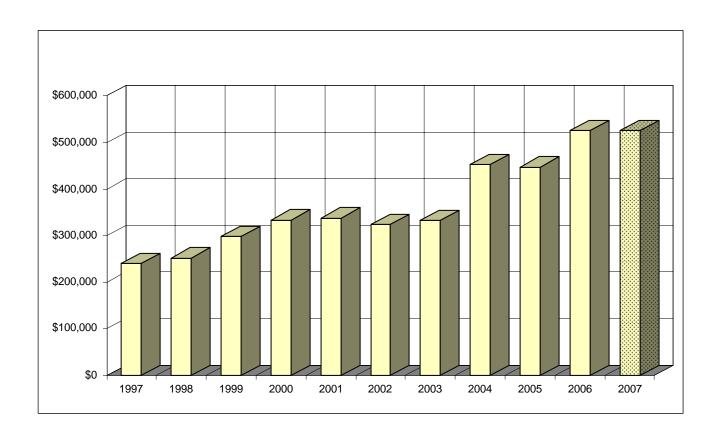

Fiscal	Revenue	
Year	Billed	Expenditures
1997	\$596,603	\$827,302
1998	\$615,134	\$860,459

2006	\$1,100,000	\$1,300,000
2007	\$1,155,000	\$1,365,000

Ten-Year Ambulance Revenue History

The City provides emergency ambulance service to those who reside within the Collinsville Fire Protection District. The City's three ambulances, staffed by City firefighters, responded to nearly 2,300 emergency assistance calls in 2006. Fees were raised in 2004 and 2006, but are still well below those charged by private ambulance services in the area. Revenue amounts below represent the amounts billed to customers. The overall collection rate averages about 80% after write-offs required by Medicare and Public Aid.

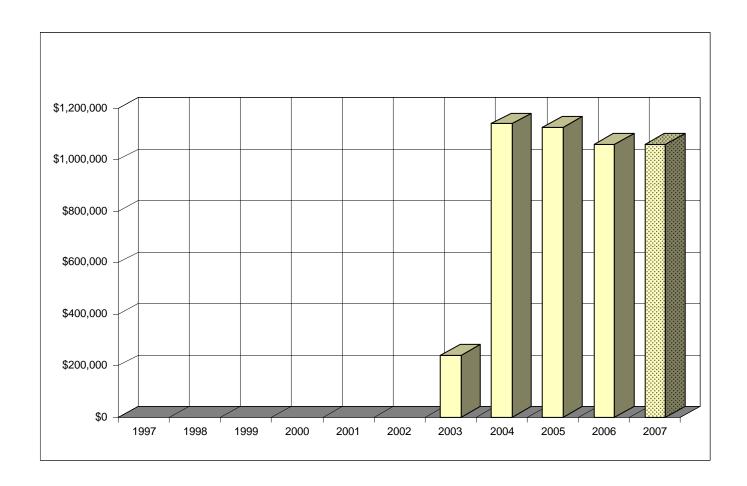

Fiscal	Revenue	Percent
Year	Billed	Change
1997	\$239,348

Ten-Year Motor Fuel Tax Revenue History

Illinois Motor Fuel Tax funds are derived from a tax based on the consumption of motor fuel. The tax collected is deposited in the State Motor Fuel Tax Fund for distribution by the Department of Transportation. State Statutes provide for certain up-front deductions. The remainder is allocated between the State and local portions. Municipalities receive their share on a per capita basis. Permissable uses of Motor Fuel Tax revenue by municipalities is contained within the State Statutues. The City maintans a separate fund for this revenue and the state does regular compliance testing.

Ten-Year Utility Revenue History

Water

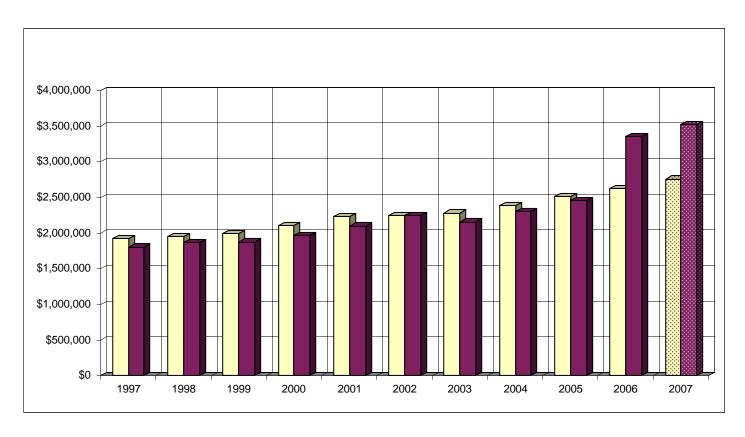

The City currently bills approximately 10,340 City and 1,210 rural customers for the provision of water. The 2007 rate for City residents is \$2.23 per thousand gallons used. For out-of-City users, the rate is \$3.36 per thousand gallons.

Sewer

The City currently bills approximately 9,650 sewer customers, including contracted customers within the Village of Maryville and Mounds Public Water Districts. Sewer rates increased significantly during 2006 to provide for EPA mandated improvements at the sewer plant. The rate for 2007 is \$4.57 per thousand gallons of water usage.

Ten-Year Hotel/Motel Tax Revenue History

City ordinance requires hotels and motels with over 20 rooms to collect a 7% tax on room rentals. This tax is collected by the City. The original 5% levy is given to the Collinsville Convention and Visitors Bureau to fund tourism efforts and debt service on Gateway Center. The additional 2% is kept in the City's General Fund and was imposed during 2006 to fund the addition of three patrolmen to the police force.

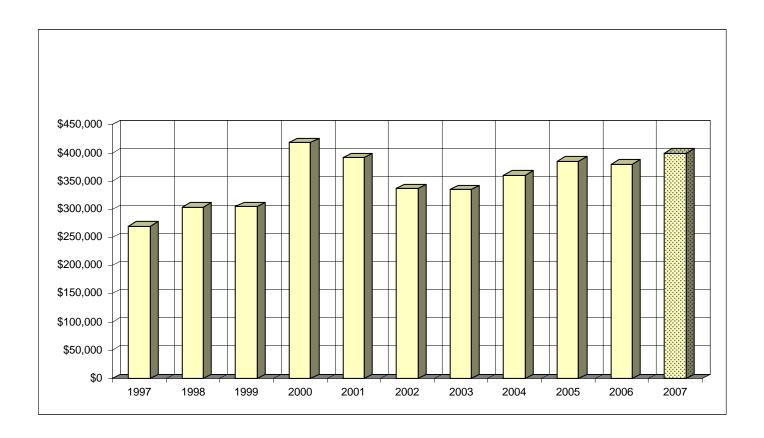

Fiscal	Hotel Tax	Percent
Year	Revenue	Change
1997	\$602,027	
1998	\$668,481	11.0%

2007 Annual Budget

General Fund

City of Collinsville, Illinois

The General Fund is the main operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. It includes seven departments and twenty programs within those departments. Legal budgetary control is exercised at the program level as demonstrated below.

The 2007 budget includes an increase of 5.6% for personnel expenditures, an increase of 36.4% for operating expenditures and a decrease of 36.9% for capital outlay. The total increase in the general fund is about \$1.8 million or 12.8%.

Administration

City Council

The City Council expenditures provide for the direct activities of the City's elected governing body consisting of the Mayor and four Councilmen. The major function of the City Council is establishing and overseeing policies and legislation necessary for the continued progressive development of the City. Costs for the City's annual audit, legal fees, workers compensation and liability insurance, and publishing fees for all public notices are included within the City Council's budget.

There is a significant increase (\$92,965 or 33.9%) in the line item for workers compensation (**01-10-00-4540**) as the 2006 premium was higher than anticipated and is expected to continue increasing.

There is a significant decrease (\$21,750 or 55.8%) in the line item for other professional services (**01-10-00-5490**) as strategic planning workshops were budgeted in this account for 2006.

There is a significant increase (\$1,200,000 or 208.3%) in the line item for rebates (**01-10-00-5990**) as the hotel/motel tax and food/beverage tax allocated to the Collinsville Convention and Visitors Bureau will be paid out of this account in the future rather than the special revenue funds that were used previously. Also, two new economic incentive agreements are anticipated for 2007.

There is a significant increase (\$10,000 or 100.0%) in the line item for equipment (**01-10-00-8300**) as the City Council members will be receiving laptop computers during 2007 to accommodate a paperless agenda during Council meetings.

There is a significant decrease (\$12,250 or 100.0%) in the line item for community relations (**01-10-00-9130**) as the expenditures for an annual volunteer appreciation dinner have been moved to the Human Resources Program. Any other expenditures that were previously classified as community relations (e.g. florist) will be included in the other professional services line item.

Boards

The following groups are included under the Boards budget: Community Appearance Board, Civil Service Commission, Fire and Police Commission, Historic Preservation Commission, Zoning Board of Appeals, Planning Commission, and Economic Development Commission. The Community Appearance Board focuses on beautification of the City. The Civil Service Commission hires non-exempt employees. The Fire and Police Commission hires all firefighters and police officers. The Historic Preservation Commission works to establish landmark status for community buildings. The Zoning Board of Appeals reviews the decisions of the Zoning Administrator and makes recommendations to the City Council. The Planning Commission ensures compliance with the City's Comprehensive Plan. The Economic Development Commission promotes economic growth within the City. The 2007 budget will be divided as follows:

		Historic	Community	Civil	Zoning	Fire and	Economic

City Manager

Salary and benefits for the City Manager and Executive Assistant to the City Manager are included in this budget. The City Manager serves as Chief Administrative Officer of the City. Appointed by and responsible to the Mayor and City Council, the City Manager supervises all departments and the day-to-day operations of the City, ensuring that all laws and ordinances are enforced. The City Manager also reviews and oversees all contractual agreements between the City and other entities. He is responsible for making sound and educated recommendations to the City Council regarding City operations and policies. The City Manager reviews the overall operations of the City with a focus on long-term objectives.

There is a significant increase (\$7,500 or 200.0%) in the line item for other professional services (**01-13-00-5490**) as strategic planning goals and objectives will be reviewed during 2007 and the City Manager's moving expenses will be reimbursed during 2007.

City Clerk

Salary and benefits for the Deputy City Clerk are included in this budget. The City Clerk program also includes building maintenance and general operations for City Hall.

There is a significant decrease (\$15,820 or 72.5%) in the line item for part-time salaries (**01-14-00-4220**) due to the retirement of the City Clerk during 2006.

Human Resources

This budget includes the salary and benefits for the Assistant City Manager and half of the salary and benefits for the Administrative Secretary. The Assistant City Manager is responsible for personnel administration, benefits administration, safety and insurance, risk management, Americans with Disabilities Act (ADA) compliance, board liaison duties, maintaining the City's official web page on the internet, and other duties assigned by the City Manager.

Police Department

Police Administration

Salary and benefits for the Chief of Police and two Assistant Chiefs of Police are included in this budget. The Police Administration Program also includes building maintenance and general operations for the Police Station.

There is a significant increase (\$15,500 or 43.7%) in the line item for maintenance service – office equipment (**01-20-00-5170**) due to the increased cost of software maintenance and support.

There is a significant increase (\$19,000 or 82.6%) in the line item for other professional services (**01-20-00-5490**) because expenditures for prisoner meals and cleaning of cell blankets were previously recorded in the other expenditures account (**01-20-00-9100**), which has been eliminated in the 2007 budget.

There is a significant increase (\$12,000 or 40.0%) in the line item for utilities (**01-20-00-5710**) in anticipation of higher rates for electricity.

There is a significant increase (\$9,000 or 100.0%) in the line item for operating supplies (**01-20-00-6520**) because expenditures for DARE (**01-20-00-9131**) and community relations (**01-20-00-9130**) have been consolidated into this account.

Police Operations

The Police Operations Program consists of 38 sworn police officers (5 sergeants and 33 patrolmen.) They respond to the more than twenty-five thousand calls for service each year. This program includes detectives, canine officers, DARE officers, school resource officers and officers assigned to special task forces.

There is a significant increase (\$84,780 or 19.7%) in the line item for health insurance (**01-20-10-4510**) due to the corresponding increase in the City's premiums. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the large number of employees in this program.

There is a significant decrease (\$10,000 or 16.7%) in the line item for tuition reimbursement (**01-20-10-5640**) due to the likelihood that fewer employees will take advantage of this benefit in 2007 than prior years.

There is a significant increase (\$13,950 or 29.0%) in the line item for equipment (**01-20-10-8300**) for the purchase of six portable radios and two radar units as well as the lease of ten in-car computers.

It is interesting to note that the salary accounts in this program will decrease in 2007, even after the addition of three patrolman positions during 2006. That is due to the settlement of a union contract during 2006. The employees in this program were retroactively paid back to the date the prior contract expired.

Police Support

The Police Support Program includes five dispatchers, six clerks, two community service officers and seven part-time clerks and dispatchers. These employees provide an important link between the police officers on the street and residents who are calling for assistance in emergency situations.

There is a significant increase (\$16,585 or 16.0%) in the line item for health insurance (**01-20-20-4510**) due to the corresponding increase in the City's premiums. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the number of employees in this program.

There is a significant increase (\$16,175 or 56.3%) in the line item for IMRF (**01-20-20-4620**) due to an increase in the City's contribution rate. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the large number of employees in this program who participate in the Illinois Municipal Retirement Fund.

Animal Control

Salary and benefits for the two Human Officers are included in this budget. The Animal Control Program also includes building maintenance and general operations for the animal shelter.

While there are no individually significant fluctuations in the 2007 budget, it is important to note that plans are underway for a new animal shelter. The budget for this program will increase significantly in subsequent years.

Fire Department

Fire Administration

Salary and benefits for the Fire Chief and Administrative Assistant are included in this budget. Fire Administration also includes building maintenance and general operations for the two Fire Stations.

There is a significant decrease (\$15,000 or 50.0%) in the line item for utilities (**01-30-00-5710**) because the expenditure was over estimated for the new fire station in the 2006 budget. The anticipated rate increases for electric utility have been taken into consideration.

There is a significant increase (\$20,000 or 66.7%) in the line item for building (**01-30-00-8200**) as the Northside Fire Station is in need of repair. The budget for 2007 includes painting, cabinets, roofing and replacement of the front ramp.

Fire Operations

The Fire Operations Programs consists of four captains, four lieutenants and twenty firefighters. They operate two fire stations that house two aerial trucks, two pumpers and two support vehicles. In 2006, the Fire Department responded to over 750 fire calls.

There is a significant increase (\$83,000 or 58.5%) in the line item for overtime (**01-31-00-4230**) due to a requirement in the union contract that every shift has a minimum of six men on duty.

There is a significant increase (\$12,505 or 18.0%) in the line item for longevity pay (**01-31-00-4270**) due to the tenure of the employees in this program.

There is a significant increase (\$52,095 or 240.9%) in the line item for sick pay (**01-31-00-4250**) due to the potential of three firefighters to retire during 2007. At retirement they will be paid for their accrued time-off.

There is a significant increase (\$83,370 or 25.0%) in the line item for health insurance (**01-31-00-4510**) due to the corresponding increase in the City's premiums. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the number of employees in this program.

There is a significant decrease (\$11,750 or 66.2%) in the line item for operating supplies (**01-31-00-6510**) due to replacement of turn-out gear in the prior year.

There is a significant decrease (\$62,500 or 81.7%) in the line item for equipment (**01-31-00-8300**) due to purchases that were made during 2006 from the proceeds of a donation to the Fire Department from the late Mrs. Cigliana.

Ambulance

The Ambulance Program consists mostly of overtime incurred by the firefighters while providing ambulance service. Every firefighter is a certified paramedic. They operate three ambulances and responded to over 2,200 EMS calls during 2006

There is a significant decrease (\$135,000 or 100.0%) in the line item for equipment (**01-31-10-8300**) due to the receipt of a grant during 2006, which financed the purchase of EMS monitors, backboards and other ambulance equipment.

There is a significant increase (\$15,000 or 100.0%) in the line item for bad debts related to ambulance billing (**01-31-10-9520**) due to the growing number of write-offs that are required by Medicare and public aid as well as the rising difficulty of collection.

Emergency Management Agency (EMA)

This budget includes salary and benefits for a part-time EMA Director. The Emergency Management Agency operates one mobile command center and one support vehicle to assist the fire department when needed. In 2006, approximately 25 volunteers donated over 1,200 hours of service. Using federal grants, the EMA provides regional training on community response to disasters and emergencies.

Public Works Department

Streets

This budget includes salary and benefits for the Director of Streets, two Street Foremen, ten Street Laborers, one part-time Secretary and three part-time Labor Helpers. The Street Program ensures that all streets (80-miles of paved and 60-miles of oil-and-chip) within City limits are safe for motor traffic and all sidewalks within City limits are safe for pedestrian traffic. It removes snow during winter months, trims trees within public right-of-ways and provides small limb pickup to residents upon request.

Through an intergovernmental agreement with the State of Illinois, the Street Program maintains nine of the City's 23 signalized intersections. The electric cost for all streetlights within the City's corporate limits is included in this budget.

There is a significant increase (\$34,595 or 27.9%) in the line item for health insurance (**01-41-10-4510**) due to the corresponding increase in the City's premiums. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the number of employees in this program.

There is a significant increase (\$22,985 or 59.3%) in the line item for IMRF (**01-41-10-4620**) due to an increase in the City's contribution rate. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the large number of employees in this program who participate in the Illinois Municipal Retirement Fund.

There is a significant increase (\$60,000 or 40.0%) in the line item for street lighting (**01-41-10-5720**) in anticipation of higher rates for electricity.

It is important to note that this program includes a staff increase of one Street Laborer in 2007. The approximate cost of that employee's salary and benefits is \$79,580.

Garbage

This program contains costs for the City's current contracted waste hauler. Allied Waste provides weekly curbside pickup of normal trash, recyclable materials, and yard waste to residents. See page 13 for more details. The Garbage Program also contains costs for maintenance of the City's closed landfill.

There is a significant decrease (\$53,200 or 39.35%) in the line item for other professional services (**01-45-00-5490**) due to the City's efforts during 2006 to obtain final closure status of the landfill with the Illinois Environmental Protection Agency.

Inspections

This budget includes salary and benefits for the Director of Inspections and the Code Enforcement Officer as well as a part-time plumbing inspector. The Inspections Program issues all building permits, reviews all construction documents, enforces the sign ordinance and nuisance regulations, issues demolition permits, and reviews all new construction and remodeling for electrical, plumbing, and building code compliance.

Finance

This budget includes salary and benefits for the Director of Finance and seven Account Technicians. They are responsible for all financial and accounting functions of the City including payroll, ambulance billing, accounts payable, utility billing and collections. The Finance Department also prepares financial statements, publication reports, lax levies and budgets. The Director of Finance serves as the City Treasurer and Budget Officer.

There is a significant increase (\$43,400 or 15.2%) in the line item for full-time salaries (**01-50-00-4210**) and a significant decrease (\$17,575 or 100.0%) in the line item for part-time salaries (**01-50-00-4220**.) These are both due to union negotiations during 2006 that resulted in the elimination of a part-time position and the addition of a full-time position.

There is a significant increase (\$13,650 or 22.2%) in the line item for health insurance (**01-50-00-4510**) due to the corresponding increase in the City's premiums. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the number of employees in this program.

There is a significant increase (\$10,990 or 65.7%) in the line item for IMRF (**01-50-00-4620**) due to an increase in the City's contribution rate. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the number of employees in this program who participate in the Illinois Municipal Retirement Fund.

Community Development

This budget includes the salary and benefits for the Director of Community Development and half of the salary and benefits for the Administrative Secretary. The Director of Community Development serves to promote and facilitate economic development within the City. He is the staff liaison for the Economic Development Commission, the Planning Commission, and the Zoning Board of Appeals. The Director of Community Development implements the City's Comprehensive Plan through professional planning and administration of the zoning, subdivision, and building ordinances. He negotiates agreements regarding planned unit development, annexations, and other development issues. The Director of Community Development also serves as the TIF Administrator.

There is a significant increase (\$10,000 or 14.3%) in the line item for engineering services (**01-64-00-5320**) due to anticipated development during 2007.

There is a significant increase (\$20,000 or 66.7%) in the line item for other professional services (**01-64-00-5490**) as there is a mapping project planned for the City's website during 2007.

There is a significant increase (\$17,000 or 212.5%) in the line item for publishing (**01-64-00-5530**) due to efforts of the Director to attract new development.

There is a significant increase (\$27,000 or 207.7%) in the line item for equipment (**01-64-00-8300**) as software and parcel information is required for a GIS mapping project planned during 2007.

Shuttle Bus

This budget includes salaries and benefits for a part-time Director of Shuttle Bus, a part-time Assistant Director of Shuttle Bus, a part-time Secretary and five part-time Drivers. The Shuttle Bus Program provides free, daily transportation to residents of Collinsville who are disabled or who are over 60 years of age. The shuttle bus travels over 25,000 miles per year within the City of Collinsville. A staff of senior citizen volunteers assists the Shuttle Bus Program with radio dispatching of the bus.

No significant changes in budget are anticipated during 2007. However, increasing gasoline prices are an important variable in this program.

Capital Projects Fund

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by Proprietary Funds. In order to plan for future equipment and vehicle replacements as well as infrastructure improvements, the City has instituted a Capital Improvement Program (CIP.) It will be reviewed and updated annually.

In 2004, the City of Collinsville enacted a utility tax and dedicated it to the funding of capital projects. This funding has provided police and staff vehicles, an ambulance, dump truck, street sweeper and major road improvements such as the reconstruction of St. Clair Avenue.

Below is the list of capital projects that are planned in the 2007 budget as well as the following two years. These projects are subject to change as needs arise and funding is available.

Year	Department	Project	Cost
2007	Streets	2 1/2-ton dump truck	70,000
		2 1/2-ton dump truck	70,000
		1/2-ton pickup	19,000
		Gas tank site cleanup (LUST Grant)	250,000
		Pine Lake Road - Manor Dr. to Raintree	615,000
	Police	Vehicles (4)	105,000
	Fire	Thermo camera, turnout gear	18,000
		Warning Siren	24,000
	Shuttle Bus	13-passenger bus with wheelchair lift	60,000
			1,231,000
2008	Public Works	1-ton dump truck, v-box, plow	45,000
		1/2-ton pickup	23,000
		Pine Lake Road - Manor Dr. to Tessy Ln.	179,250
	Police	Vehicles (3)	80,000
	Fire	Ambulance	120,000
			447,250
2009	Public Works	Geo-Vac sweeper	160,000
		Grader	125,000
		Sugar Loaf Road - IL 157 to end of curb and gutter	149,200
	5 "	Victory - Greenfield to Kneedler	318,150
	Police	Vehicles (3)	80,000
			832,350

2007 Annual Budget

Special Revenue Funds

City of Collinsville, Illinois

Forfeiture Fund

This fund is used to account for monies received or other assets forfeited to the City as a result of judgments in certain court cases. These resources will be used in connections with police programs.

Motor Fuel Tax Fund

This fund is used to account for motor fuel tax revenue and the expenditures that are permissible according to the Illinois State Statutes. Much of the City's road construction, maintenance and repairs are funded by this special revenue source. The motor fuel tax also provides snow removal materials such as salt, deicer aggregate and calcium chloride.

The Director of Streets is responsible for the administration of the motor fuel tax program, which includes approximately 5,000 square yards of oil and chip streets to be scarified and base strengthened and 15 to 17 miles of streets to be oiled and chipped. The Mulberry Street Bridge will be replaced using motor fuel tax during 2007.

Tax Increment Financing District 1 Fund

This fund is used to account for the activities of Tax Increment Financing (TIF) District 1, established during 1986. Its boundaries include the Eastport area and downtown Collinsville. The incremental revenues since the TIF was established have been used to improve the area. Noteworthy projects include the Gateway Center expansion, improvements to the Collinsville Memorial Library building, resurfacing of South Clinton Street and Summit Avenue, renovation of the former police station into a new fire station, and various façade improvements in the downtown area.

41-00-00-XXXX	\$64,360	TIF Director salary, benefits, supplies, etc.
41-00-00-5180 Maint. Service-Groun	nds \$10,000	recoat Streetprint crosswalks in downtown area
41-00-00-5320 Engineering	\$80,000	engineering services
41-00-00-5330 Legal Fees	\$50,000	legal services
41-00-00-5490 Professional Services	s \$60,000	TIF Consulting (PGAV)
	\$70,000	Downtown Collinsville, Inc.
41-00-00-5530 Publishing	\$10,000	required TIF notices
41-00-00-5990 Rebates	\$550,000	Unit 10 school district for provision of vocational education
	\$21,000	various rebates to developers
41-00-00-7100 Principal	\$285,000	principal payment on 1997 bonds (police station)
41-00-00-7200 Interest Expense	\$46,720	interest payments on 1997 bonds (police station)
41-00-00-8200 Buildings	\$100,000	remodel of old fire station
41-00-00-8500 Infrastructure	\$100,000	micropaving in the Eastport area
	\$1,875,000	downtown streetscape program
41-00-00-8900 Other Improvements	\$543,775	Gateway Center expansion
	\$200,000	façade and code improvements
	\$15,215	library renovations (per 2003 agreement)
41-00-00-9999 Transfer Out	<u>\$88,040</u>	transfer to fund 36 for 2003B bond payment (water tower)
	\$4,169,110

City of Collinsville, Illinois

Police Pension Fund

This fund is used to account for contributions from the City, withholdings of current police officers and investment income restricted for current and future police pension payments. The City's contribution is a combination of replacement tax and property tax as determined by the Illinois Division of Insurance. Assets of the fund must be sufficient to meet future pension obligations as determined by an actuarial valuation.

Debt Service Funds

City of Collinsville, Illinois

2003 B Bond Fund

This fund is used to account for debt service payments related to the addition of a water tower to the downtown area. The bonds were originally issued in 1991 and subsequently refunded in 1993 and 2003. A transfer is budgeted each year from the TIF District 1 Fund to the 2003 B Bond Fund in the amount of the debt service payment.

2007 Annual Budget

Enterprise Fund

City of Collinsville, Illinois

The Water and Waste Water Fund is the only enterprise fund or business-type activity of the City of Collinsville. It is used to account for all revenues and expenses of the City's two utilities, water and waste water (sewer.) It includes two departments and five programs within those departments. Legal budgetary control is exercised at the program level as demonstrated below.

The 2007 budget has an increase of 15.7% for personnel expenditures (salary and benefits), and an increase of 5.1% for operations (contractual services, commodities and other uses of funds), and a decrease of 4.1% for capital outlay. The net increase for the Water/Waste Water Fund as a whole is 7.7%

The City of Collinsville has established a goal of keeping the fund balance in this fund at 25% of current year expenditures in case of emergency. This goal will be accomplished in 2007 as fund balance at December 31, 2007 is estimated to be 49.4% of expenditures. This large accumulation of fund balance is due to the deferral of principal payments on the newly issued 2006 Bonds until 2008.

Public Works Department

Water and Waste Water Administration

Water and Waste Water Administration includes the costs of billing and collections for the water and waste water utilities. The transfers-out include a \$300,000 payment to the general fund for salary and benefits associated with billing and collections, a \$360,125 payment to the 2003 A Bond Fund for debt service on renovations to the waste water treatment plant (originally issued in 1988 and subsequently refunded in 1993 and 2003) and a \$850,000 payment to the 2006 Bond Fund for debt service on the EPA mandated updates to the waste water treatment plant (issued in 2006.)

Water Lines

This budget includes salary and benefits for the Director of Water, two foremen and six laborers. The Water Lines Program is responsible for the repair and maintenance of the City's water lines and water meters.

There is a significant increase (\$13,520 or 11.6%) in the line item for health insurance (**52-43-20-4510**) due to the corresponding increase in the City's premiums.

There is a significant increase (\$12,610 or 48.2%) in the line item for IMRF (**52-43-20-4620**) due to an increase in the City's contribution rate. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the large number of employees in this program who participate in the Illinois Municipal Retirement Fund.

There is a significant increase (\$11,000 or 100.0%) in the line item for building (**52-43-20-8200**) due to the need to replace two over head doors and one man door during 2007.

There is a significant increase (\$65,000 or 433.3%) in the line item for equipment (**52-43-20-8300**) due to the need to replace a backhoe during 2007.

There is a significant decrease (\$25,000 or 100.0%) in the line item for vehicles (**52-43-20-8400**) because truck #35 was replaced during 2006 and a similar replacement is not required during 2007.

There is a significant increase (\$40,000 or 11.1%) in the line item for infrastructure (**52-43-20-8500**) due to the change in projects that are anticipated during 2007. The Mulberry Road waterline relocation was not done during 2006 and has been budgeted again during 2007.

Water Plant

This budget includes salary and benefits for a chief operator, five operators, a part-time laborer and half of the salary and benefits for a part-time secretary. The Water Plant Program is responsible for the operations and maintenance of the City's water treatment plant.

There is a significant increase (\$13,285 or 31.8%) in the line item for health insurance (**52-43-30-4510**) due to the corresponding increase in the City's premiums. The percentage increase seems large because the health insurance expense during 2006 will likely be over budget.

There is a significant increase (\$11,175 or 60.8%) in the line item for IMRF (**52-43-30-4620**) due to an increase in the City's contribution rate. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the large number of employees in this program who participate in the Illinois Municipal Retirement Fund.

There is a significant increase (\$55,000 or 261.9%) in the line item for maintenance service - building (**52-43-30-5110**) because the roof of the water plant needs to be replaced.

There is a significant increase (\$55,000 or 40.7%) in the line item for maintenance service - infrastructure (**52-43-30-5150**) due to the bolt replacement on a storage tank that was budgeted during 2006, but was postponed and budgeted again during 2007.

There is a significant increase (\$56,000 or 250.0%) in the line item for engineering service (**52-43-30-5320**) due to the need for capacity study.

There is a significant increase (\$25,000 or 14.3%) in the line item for utilities (**52-43-30-5710**) in anticipation of higher rates for electricity.

There is a significant increase (\$50,000 or 33.3%) in the line item for sludge disposal (**52-43-30-5730**) because removal in 2006 has been delayed to 2007.

There is a significant increase (\$60,000 or 46.2%) in the line item for chemicals (**52-43-30-6560**) due to increasing costs. This line item will likely exceed the budgeted amount for 2006.

Waste Water Lines

This budget includes salary and benefits for a foreman and seven laborers. The Waste Water Lines Program is responsible for the repair and maintenance of the City's waste water lines.

There is a significant increase (\$113,360 or 42.1%) in the line item for full-time salaries (**52-44-20-4210**) due to the addition of one laborer position during 2007. The approximate cost of that employee's total salary and benefits is \$73,175.

There is a significant increase (\$29,520 or 49.7%) in the line item for health insurance (**52-44-20-4510**) due to the corresponding increase in the City's premiums as well as the addition of one laborer position during 2007.

There is a significant increase (\$18,080 or 111.2%) in the line item for IMRF (**52-44-20-4620**) due to an increase in the City's contribution rate as well as the addition of one laborer position during 2007.

There is a significant increase (\$10,000 or 28.6%) in the line item for equipment (**52-44-20-8300**) due to the need to replace a skid steer and attachments that were cut from the 2006 budget. During 2006, less costly equipment was replaced.

There is a significant decrease (\$10,000 or 20.0%) in the line item for vehicles (**52-44-20-8400**) due to the cost of the service truck that will be replaced during 2007. The one-ton truck and plow that was replaced during 2006 was more expensive. The truck being replaced during 2007 is a 1996 model with extensive miles.

There is a significant increase (\$30,000 or 35.3%) in the line item for infrastructure (**52-44-20-8500**) due to manhole relining and carrying forward the budget for bores/Route 40 forcemain to the 2007 budget.

Waste Water Plant

This budget includes salary and benefits for the Director of Waste Water, a maintenance chief, a foreman, five operators, a part-time laborer and half of the salary and benefits for a part-time secretary. The Waste Water Plant Program is responsible for the operations and maintenance of the City's waste water treatment plant.

There is a significant increase (\$15,660 or 65.4%) in the line item for IMRF (**52-44-30-4620**) due to an increase in the City's contribution rate. The increase in terms of percentage is consistent with the other departments and programs. However, the increase in terms of dollars is a reflection of the large number of employees in this program who participate in the Illinois Municipal Retirement Fund.

There is a significant decrease (\$20,000 or 66.7%) in the line item for engineering service (**52-44-30-5320**) related to Rota Mix.

There is a significant increase (\$13,000 or 40.6%) in the line item for chemicals (**52-44-30-6560**) due to increasing costs. This line item will likely exceed the budgeted amount for 2006.

There is a significant decrease (\$30,000 or 75.0%) in the line item for equipment (**52-44-30-8300**) because the replacement of more costly equipment was budgeted during 2006.

There is a significant decrease (\$25,000 or 100.0%) in the line item for vehicles (**52-44-30-8400**) because truck #2 was replaced during 2006 and a similar replacement is not required during 2007.

There is a significant increase (\$20,000 or 100.0%) in the line item for infrastructure (**52-44-30-8500**) in anticipation of emergency repairs.

2003 A Bond Fund

This fund is used to account for debt service payments related to the renovations made to the waste water treatment plant during 1998. The bonds were originally issued in 1998 and subsequently refunded in 1993 and 2003. A transfer is budgeted each year from the Water and Waste Water Fund to the 2003 A Bond Fund in the amount of the debt service payments.

This fund functions as a debt service fund, but will be consolidated with the Water and Waste Water Fund in the City's annual financial statements.

2006 Project Fund

This fund is used to account for proceeds of the 2006 bond issue. Twenty million dollars in general obligation bonds were issued for EPA mandated updates to the waste water plant as well as expansion of the waste water lines.

This fund functions as a capital projects fund, but will be consolidated with the Water and Waste Water Fund in the City's annual financial statements.

2006 Bond Fund

This fund is used to account for debt service payments for the 2006 bonds. They were issued to finance EPA mandated upgrades to the waste water plant as well as expansion of the waste water lines. A transfer is budgeted each year from the Water and Waste Water Fund to the 2006 Bond Fund in the amount of the debt service payments.

This fund functions as a debt service fund, but will be consolidated with the Water and Waste Water Fund in the City's annual financial statements.
